Call for abstracts and posters for the Nordic Congress in Anesthesia and Intensive Care Nurses 2022

We have the pleasure to welcome you to the NOKIAS congress in Trondheim, Norway, September 14th to 16th 2022. The congress is held at the Clarion Congress & Hotel, and the opening session takes place in Nidarosdomen, a great medieval church, on September 14th.

We continue a long Nordic tradition with a common congress for our colleges from the Nordic countries in anesthesia and intensive care nursing, a tradition that has taken place every third year since 1977.

Our wish is that NOKIAS will be a place to meet and mingle, and to learn from and support one another through professional input and discussions.

Trondheim has a lot to offer

Trondheim is best known for Nidarosdomen, the oldest medieval building in Northern Europe, and the thousand-year-old city has much history to present. Trondheim is also recognized for delicious food experiences, and three restaurants; Credo, Speilsalen Britannia and Fagn, have all received Michelin stars.

The county of Trondelag invites to exquisite possibilities when it comes to nature experiences. Hiking in the inland, boat trips in the fjords, fishing along the coast line or musk safari in the southern mountains, the possibilities are infinite...

Welcome to NOKIAS Trondheim in 2022!

Submit your abstract!

Abstracts can be in a Nordic language or in English.

They should contain:

- Name of author(s)
- Contact information
- Abstract text that should highlight the main points of the presentation (not more than 400 words)
 - Studies should follow this structure: Introduction, aim, methods, results, conclusion and implications
 - Case reports should follow this structure: Introduction, case history, discussion
- All abstract should consider implications for specialist nursing practice

Please inform whether you apply for an oral presentation or a scientific poster-presentation.

Abstracts should be sent within February 15th 2022 to: nokiastrondheim22@gmail.com

Best regards from the NOKIAS working group

SCIENTIFIC THEME FOR NOKIAS: Communication

“Communication works for those who work at it”

John Powell

We will accept presentations within these thematic areas:

- Colleague support
- Defuse/debrief
- ISBAR/Other standardized communication/information tools
- Admission in the ICU, patient safety and good flow of information
- Non-technical skills
